Film by Conrad Schmidt ("Five Ring Circus") with excellent video footage of the Ashlu River. Includes interviews with Gwen Barlee of the Western Canada Wilderness Committee, NDP Environment Critic Shane Simpson, Adriane Carr of the Green Party, Elaine Golds of the Burke Mountain Naturalists, and Tom Rankin of Friends of the Ashlu. Tens of billions of public dollars being given to a few private hands to build private renewable energy assets which will never stop making money for the private owners.
